

Jiangsu Flower Intelligent Technology Co., Ltd.

ABOUT US

Our company is a comprehensive intelligent manufacturing enterprise specializing in mobile/capsule housing, integrated health, cultural tourism, and related sectors., supported by a team of experienced technical professionals and a strong domestic and international sales network.

With advanced production facilities and well-established manufacturing processes, FlowerIntelligent integrates high-end technologies and standardized management systems to deliver reliable and forward-looking solutions. The company is committed to meeting diverse application needs across residential and health-related sectors in both domestic and global markets.

MODULAR DESIGN · FLEXIBLE SPACE SOLUTIONS

Flexible Applications

Suitable for a wide range of applications such as residential housing, resort cabins, commercial spaces, and temporary facilities.

Built with durable materials and weather-resistant finishes, suitable for long-term outdoor environments.

Customizable Options

Layouts, configurations, and interior options can be customized according to specific project requirements.

An aerial view of a tropical beach with several modern, white modular houses built on stilts. The houses have large glass windows and balconies. In the foreground, there is a wooden deck with lounge chairs and a large umbrella. A few people are walking on the sandy beach. In the background, there is a dense line of palm trees and a wooden walkway on a raised platform.

Flower House

Space Capsule House

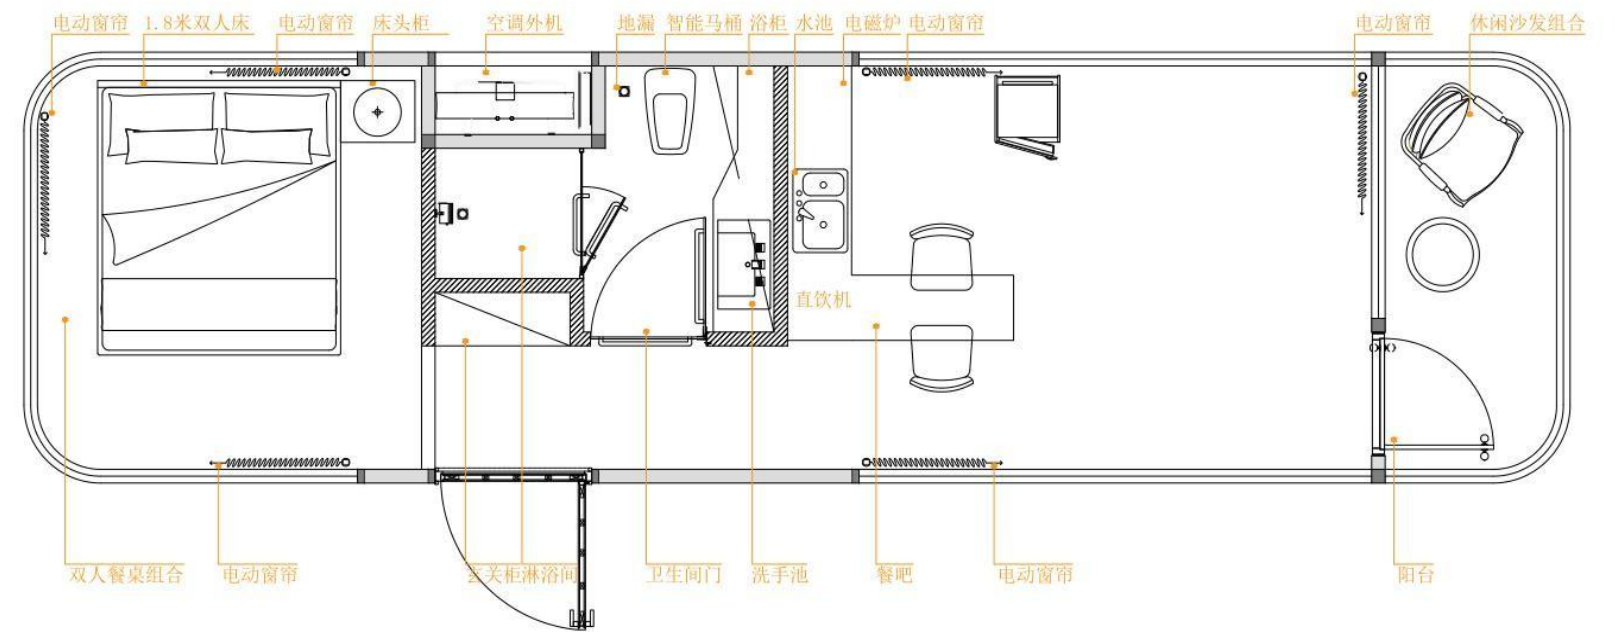

More than a building product, the Space Capsule House represents an efficient and replicable spatial solution, offering greater flexibility and control for project development.

F3 Space Capsule House

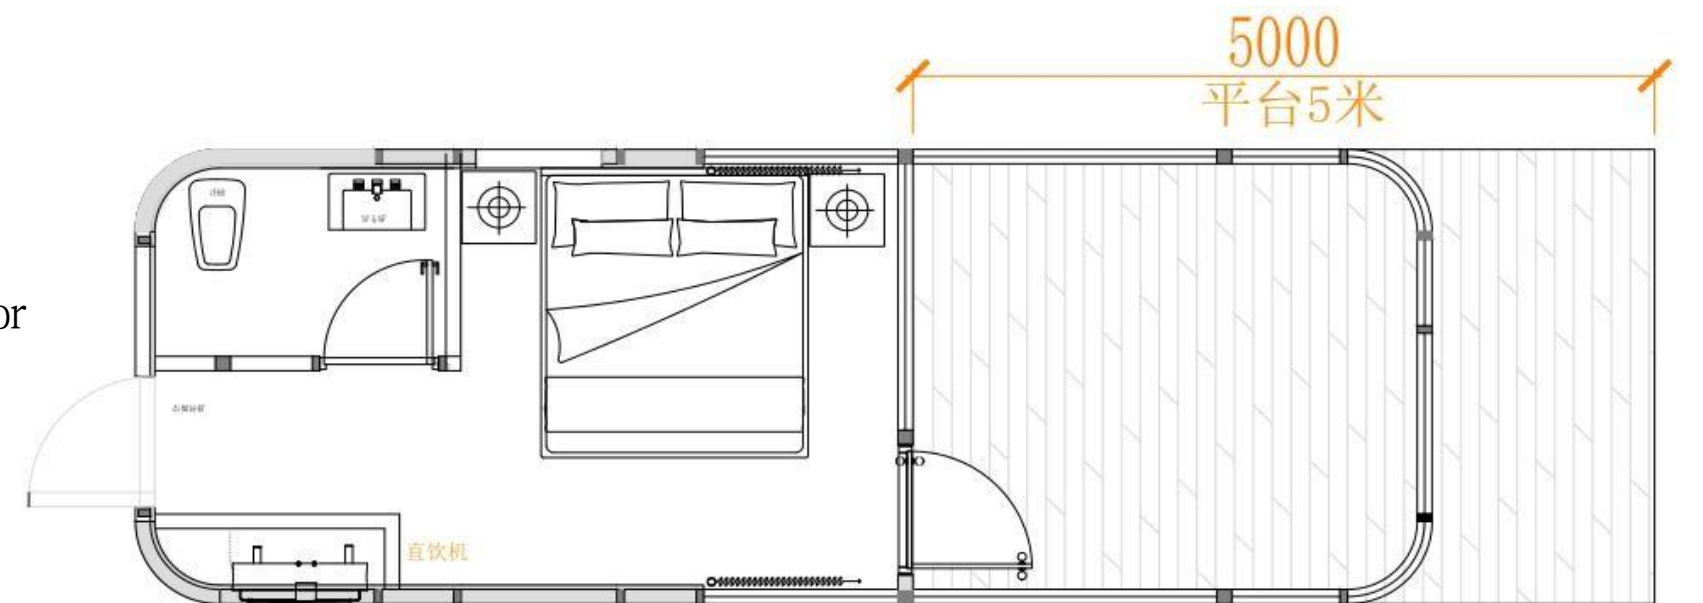

GROUND FLOOR (L × W × H)	11,500 × 3,300 × 3,200 mm
UPPER FLOOR (L × W × H)	8,500 × 3,300 × 3,200 mm
LAND OCCUPATION AREA	50 m ²
NUMBER OF GUESTS	3 – 4 persons
CABIN WEIGHT	9,000 kg

1st Floor

2nd Floor

What You See Is What You Get

EXTERNAL MAINTENANCE SYSTEM

Galvanized steel frame system provides strong structural support and durability. Fluorocarbon sprayed aluminum alloy shell module offers excellent corrosion resistance, weather protection, and a premium finish. Insulation, waterproof and moisture-proof structural system ensures thermal efficiency. Central tempered glass doors and windows with laminated tempered glass skylight. Stainless steel entrance door for security. Panoramic balcony extends living space outdoors.

INTERIOR DECORATION

Standard color integrated ceiling and wall modules for a clean, uniform appearance. Environmentally friendly wooden floor throughout the living space. Bathroom features privacy glass door, marble and ceramic tile floor, customized sink, countertop, mirror, toilet, faucet, and shower. Bar area included for added functionality. Whole house lighting system and complete water/electricity system. 2P Midea variable frequency heating and cooling air conditioner delivers energy-efficient climate comfort. Water heater supplies consistent hot water.

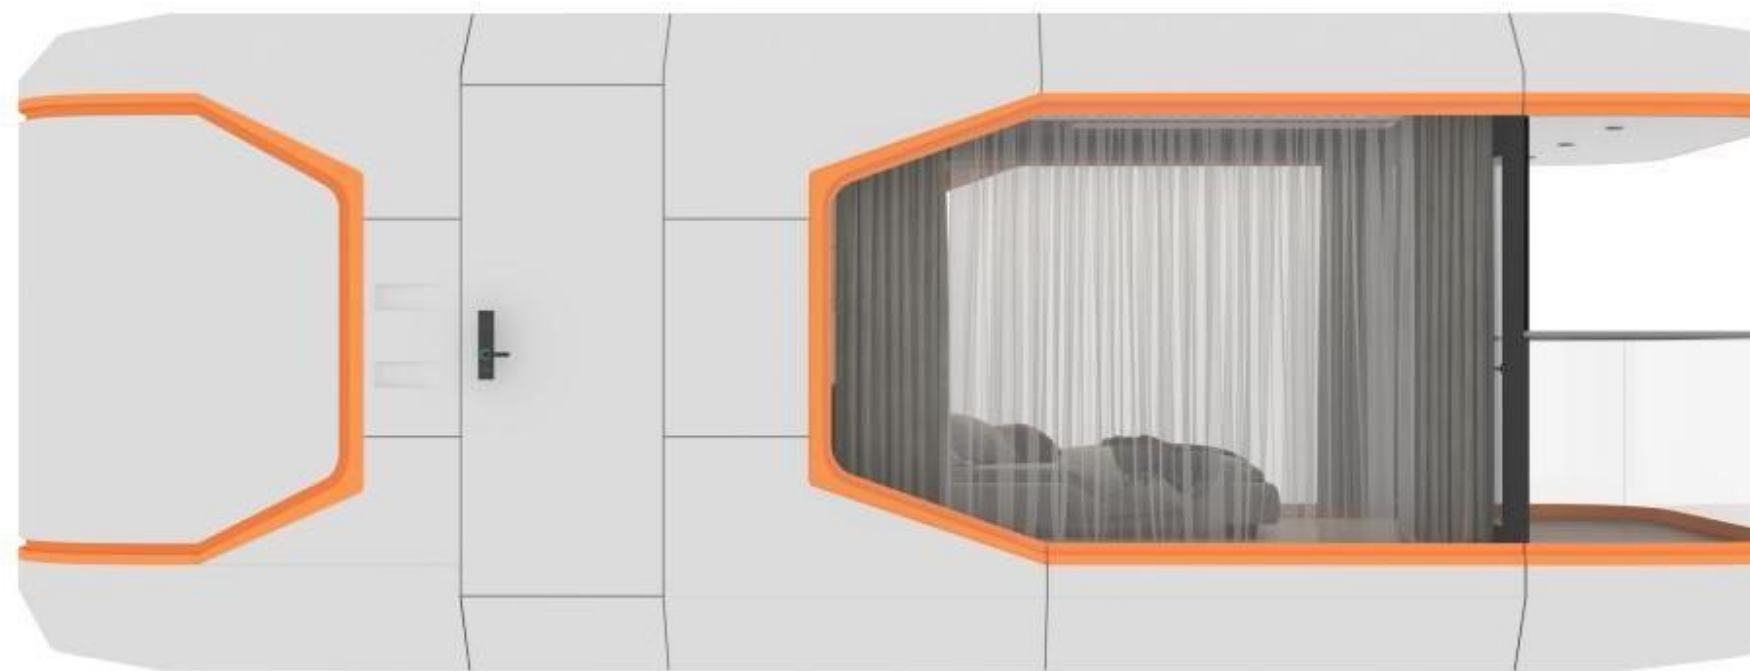

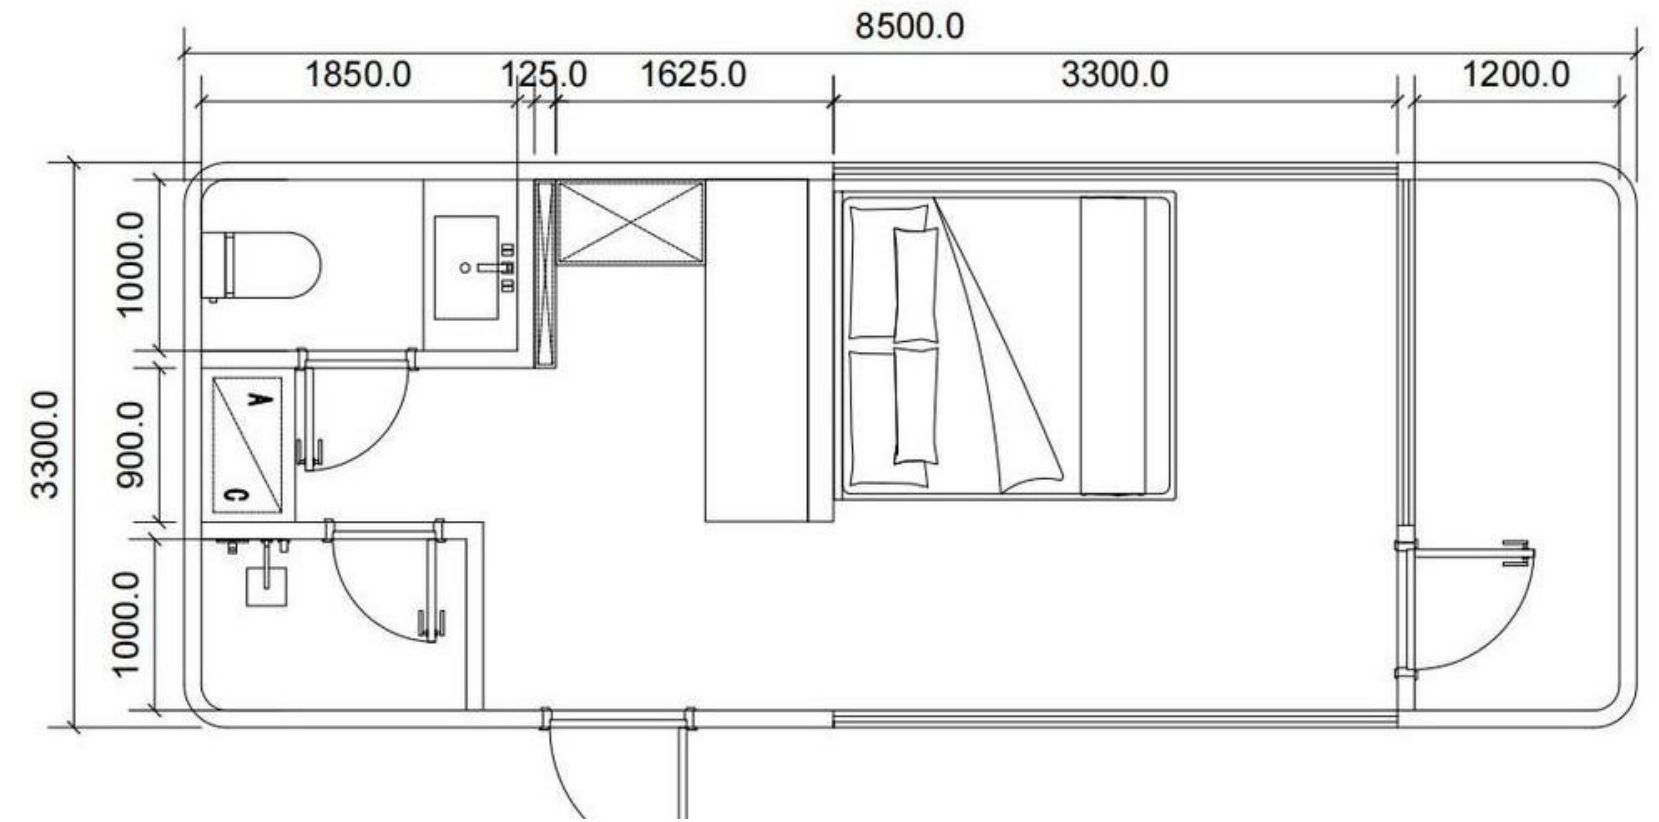

CUSTOMER CONTROL SYSTEM

Card insertion and removal panel automatically activates power when a card is inserted and cuts power when removed. Multi-scenario mode function panel allows users to switch between different lighting presets such as reading, relaxing, or entertainment. Intelligent integrated control manages both lighting and curtains together for seamless convenience. Whole house smart voice control enables hands-free operation of multiple systems. Mobile phone smart access control provides keyless, remote entry for enhanced security and ease of use.

F5 Space Capsule House

DIMENSIONS (L × W × H)	8,500 × 3,300 × 3,200 mm
LAND OCCUPATION AREA	28 m ²
NUMBER OF GUESTS	2 persons
CABIN WEIGHT	6,000 kg
